

MEMORIAL DAY BREAKFAST

for all lot owner families and their guests (weather permitting)

Come and get acquainted or reacquainted with your Grandview neighbors. Monday, May 29th 9—11 am. Hosted by Tom & Julia Schroeder and sponsored by the Grandview Yacht Club. Lot 102, 4101 South Summit Lane. Donuts, coffee and juice will be served.

Welcome to the Lake at springtime!

As the weather improves so do our spirits! Let's give a shout out to our homeowners and their construction contractors. While it has been a VERY busy time with construction and a LOT of activity, our general contractors and their subcontractors have generally adhered to the time guidelines for contractors. Thank you all!

Spring is the time of yard cleanup as well. Please guide your hired landscape and yard cleanup crew with the time guide as well, particularly if they are using chain saws, gas and electric shrub trimmers, gas powered leaf blowers and the like. Please ask that they complete their work Monday through Friday 7:30 am to 7 pm or Saturday 8am to 4pm. This allows us all to enjoy a peaceful Sunday on the lake and in the company of each other.

LAKE SAFETY—Jason Carroll

Welcome to summer!

Please see the following tips below for fun filled safety information.

1. **Idle Zones:** Please stop your wake making speed **PRIOR** to entering an idle/no wake zone.
2. Carbon Monoxide (CO) can affect passengers in boats, whether they are at speed, anchored or idling. CO levels from boat exhaust can reach critical levels in a short time.
 - You cannot see, smell, or taste CO
 - Never sit, teak surf, or hang on the back deck or swim platform while the engines are running.
 - **Symptoms of CO poisoning include:**
 - Severe headache, dizziness, confusion, nausea, fainting.
 - If you suspect CO poisoning, immediately get the victim to fresh air and seek medical care.
3. **Electrocution in water** – also known as an electric shock drowning – is when faulty wiring in a pool light or on a boat dock or boat launch releases an electrical current into the water, thus electrifying the water, and a person such as a swimmer, comes into contact with the electrified water. Tragically, the person becomes a conductor of the electricity as it passes through his or her body. This paralyzes the person's muscles, rendering him or her unable to swim, which could ultimately cause the person to drown. **Please check all electrical wires in and around docks, boatlifts, etc.**
4. **Only TWO people on a tube/behind the boat during the holiday weekend (and weekends in general). Please, review the rules for further information and details.**
5. All skiers and jet skiers must wear a **life jacket** when being towed or operating a jet ski—no exceptions.
6. **Drinking and boating:** Indiana law prohibits anyone from boating while intoxicated—that is, operating a motorboat or a PWC while intoxicated due to alcohol or drugs. Alcohol and drugs cause impaired balance, blurred vision, poor coordination, impaired judgment, and slower reaction times. Alcohol is a major contributor to boating accidents and fatalities. **Lot owners please remember you are responsible for your guests. Please help spread the word about the lake safety rules.**
7. As a reminder, Ballast of any kind is **prohibited**.
8. Please do not swim across the main part of the lake during the weekend; boats might hit you.
9. **Common sense:** Sound and prudent judgment based on a simple perception of the situation or facts. Please use common sense this weekend.

HAVE A GREAT MEMORIAL DAY WEEKEND AND

MOST OF ALL BE SAFE!!
