LAKE SAFETY

From where did Captain Hook buy his hook? At a second-hand store. 😊

Thank you for a safe 4th of July weekend.

Here are some key items to remember: Speed limit is 35mph, no riding on front of boats while in motion; the sunset hour is the time you stop going fast and quit pulling skiers; the correct direction around the lake is counter-clockwise; wake-surfing only is only allowed in designated area.

Boat Safety:

People tend to encounter a rotating propeller in one of the following scenarios: (Propellersafety.com)

- They were tubing, water skiing, or wakeboarding, fell, and were hit by their own boat when it came back to pick them up.
- They were tubing, water skiing, or wakeboarding, fell, and ran over by another boat that did not see them in the water.
- Children, youth, or adults were riding on the front of a pontoon boat dangling their feet in the water when the boat is underway. They fell in and were struck by the propeller.
- One or more people ejected when boat hits a large wake/wave and they are struck by the propeller.

Don't become a statistic- boat riders and boat drivers need to **pay attention** especially at dusk.

STICKERS-

- If you have a BLUE sticker on a boat with an engine, it needs to be switched out to the new style sticker (which is technically not new).
- All stickers need to be visible, not under the water line of the hull.

LAKE SAFETY RULES: Review rules with your guests.
