

## GLOA NEWSLETTER December 1, 2023

### This Week's Deer Hunt Schedule

#### **NO HUNTING**

**Saturday, December 2<sup>nd</sup> – Friday, December 8th**

**Woods and Trails are open.**

#### **FOUND**

A set of keys was found on the hiking trail on the northwest side of the lake that parallels Poplar Drive. If you are missing any keys contact the GLOA office at 812-342-1219 or email at [gloa@grandviewlake.org](mailto:gloa@grandviewlake.org).

#### **LOST**

Floating water pad, two colors, blue on one side and green on another. Lot #268 is faintly written on it. If found, please call Bob Schloss at 812-343-6763.

## **LAKE SAFETY**

### **Winter tip of the day:**

Never catch snowflakes on your tongue until all the birds have flown south for the winter.

### **December Safety information:**

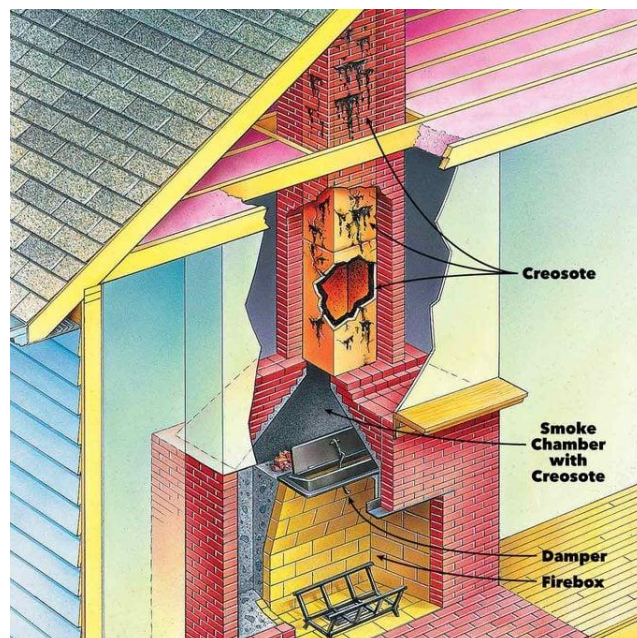

Heating equipment is one of the leading causes of home fire deaths. Fire departments responded to an estimated average of 44,210 fires involving heating equipment per year from 2016-2020, accounting for 13% of all reported home fires during this time, and these fires resulted in annual losses of 480 civilian deaths.

### **Heating fire facts based on 2016-2020 annual averages:**

- Space heaters were the type of heating equipment responsible for the largest shares of losses in home heating equipment fires, accounting for one-third of the fires, but nearly nine out of ten deaths and four out of five of the injuries in home fires caused by heating equipment.
- Fires originating in a kitchen or cooking area accounted for the largest share of home heating fires (17%).
- While the larger (non-confined) fires involving fireplaces or chimneys were involved in fewer than one in ten fires caused by heating equipment (7%), they caused just over one-fifth of the direct property damage (22%).
- **Nearly half of the heating equipment fires (46%) occurred in the three-month period from December through February.**
